8 December 1958

MINUTES OF THE CRITICAL COMMUNICATIONS
COMMITTEE - 8 December 1958

1. The Committee reviewed the experiences of the represented agencies in screening incoming messages for items that should have been submitted in the CRITIC System. It was agreed that the review should continue with each agency reporting to the Chairman whenever it identified a message which it believed should have been a CRITIC message.

2. It was agreed that the Committee should prepare a report to the United States Intelligence Board covering the first six months' of operation of the CRITIC System. The report should be written so that it can be given wide dissemination in the field, as a means of providing the field with further background on the CRITIC System. It was also agreed that Annexes A and B should be reviewed by the National Indications Center and Annex C should be reviewed by the Office of Current Intelligence, in order that any recommended changes in these annexes might be submitted to the USIB for approval along with the report on the first six months' activities.
